

Context

The aim of the policy is to provide an overarching framework which translates the values and aims of the school into effective teaching and learning so that all children reach their full potential. This is important for all learners including those classified as having special needs, those with English as an additional language, and the more able.

It is important to recognise that our curriculum will meet the needs of all our pupils as well as national directives and initiatives, although this is the legal foundation because it secures an entitlement for all students. The curriculum embraces all that is learned through school, whether it be in lessons or part of informal learning within and beyond the school day.

Purpose

We believe that learning is an enjoyable, lifelong process through which everyone can achieve their potential and exceed their expectations. We will challenge and support our students to do their very best by providing an extensive range of learning experiences beyond the statutory requirement. We also aim to prepare the pupils for the future as a global citizen.
