

TARGET: We want to improve the teaching, learning and assessment of Science & ICT. We want to ensure that Science and ICT teaching is hands on and engaging with an emphasis on real life relevance.

Investigate improving the WiFi network & provision of ipads. Possible use of DFC.

DFC funding is being used to replenish/replace laptops that were removed to provide staff with an up to date laptop. Ipads will be investigated towards the start of term 1&2 as there is a grant that we may be able to apply for.

Reconsider/develop new framework from Sept '14 in line with New Curriculum changes

On-going & will change with the introduction of the new curriculum, will become focus of staff training through the next academic year

Oakford now visit fortnightly, 16 new laptops installed during the summer holidays ready for new academic year, Board & Projector moved in Pegasus classroom to suit the needs of different year group in Victorian building classroom, digital camera purchased/donated so every classroom has one available to use

Long term program of replacement and updating of equipment

Teachers will carefully track our progress to ensure we are making good progress. (2sublevels every year)

Initial meeting happened for February 2014

New website launched at the end of term 6 and will continue to develop through the year

Installation January 2014

E-pens trial took place and although good resource too complicated to maintain. Returned to company who are pulling out of the trials.

Take part in the trail of E-pens to engage learners within the classroom environment

Equipment

Pupil Progress & Attainment

Development and launch of new school website

Program, Investigate & Communicate

Ensure children are fully aware of E-safety and staying in touch with latest implications to their lives

E-safety week took place. 2 E-safety sessions offered to parents both cancelled due to lack of support. Will now be included in Curriculum evening in June

E-safety table at the curriculum evening and staff spoke to parents on a one to one basis

How can science & ICT learning be taken outside of the classroom

New Curriculum

Cross Curricular links

E-safety is always discussed with the children at the start of ever ICT lesson

Will take forward into next year in line with the new curriculum

Understanding the challenges of the new curriculum and the training requirements

Consider purchasing expert training
Consider cross role specialism
Trialling a new planning system within school during term 5 & 6

Update Term 2

Update Term 5

End of Year Update

Installation of Electronic library system with children acting as librarians

Carry over into next financial year, discuss with Friends as an alternative

We have programs already which will meet the initial requirements; however we will need to purchase more software as the year progresses

Will be part of new library development

Will be carried over as part of the second phase development – next financial year
